

TREASURY METALS

INCORPORATED

Company Background

Treasury Metals is a Canadian based mineral exploration and development company, with a growth orientated strategy to acquire and develop advanced gold assets in the Americas. The Company's flagship asset, the 100% controlled [Goliath Gold Project](#), contains over a million ounces of gold (2.0 g/t Au cut-off). It is an advanced-stage, high-grade gold deposit near Dryden Ontario, with the potential for additional credits through silver, lead and zinc. In addition Treasury has the 100% owned [Lara Polymetallic Project](#), an advanced-stage, high-grade zinc (gold-silver-lead-copper) project, located on Vancouver Island, British Columbia.

In addition to these properties, Treasury Metals has existing royalty revenue and other monetizable assets. Treasury Metals was created as a spin-off company of [Laramide Resources](#) and benefits from a strong existing shareholder base.
